

Valve Sales Inc. Expands its Severe Service Valve Capabilities with the MOGAS product line

TULSA, OK – March 24, 2023 - [Valve Sales Inc.](#) (VSI) continues to grow their product offerings with the introduction of MOGAS Industries severe service valves. [MOGAS products](#) are designed for hard work with the ability to handle extreme conditions such as high heat, high pressure, abrasive particulates, and acidic products. The MOGAS product line includes customizable isolation valves, switch valves, rotary control, actuators, and more.

What sets MOGAS apart is their statistically driven, application-specific Performance Guarantee and Lifetime Warranty on materials and workmanship. The MOGAS Performance Guarantee is available because of 40 years of R&D, coating improvements, manufacturing techniques, and application experience. *“We are excited to announce that Valve Sales, Inc will provide the complete product portfolio of severe service ball valves from MOGAS. Partnering with the manufacturing leader for extreme industrial applications is what our customers expect from VSI. When we toured the MOGAS facilities in Houston, TX the safety, quality, innovation, and culture witnessed were in direct alignment with ours at VSI.” – Chris Chernisky, President of Valve Sales, Inc.*

Severe service valves are critical to plant safety that is why VSI is proud to partner with MOGAS, a company that engineers, manufactures and supports serious valves for serious applications. VSI is the exclusive channel partner for MOGAS in the state of Oklahoma, NW Arkansas and SE New Mexico.

About Valve Sales, Inc.
