AT VSI, WE SOLVE PROBLEMS WITH OUR PRODUCTS!

PRODUCTS

CONSERVATION VENTS AND HATCHES	VSI Premier Brands	
ELECTRIC ACTUATION	VSI Premier Brands	      
	Other brands we sell	Bettis, Protorque, Triac, USI Smartstep, Valvcon and many more!
FLAME ARRESTERS	VSI Premier Brands	
HYDRAULIC ACTUATION	VSI Premier Brands	 
	Other brands we sell	Aberdeen, Shafer and many more!
LINE VALVES & CONTROL VALVES	VSI Premier Brands	        
	Other brands we sell	Belgas, Cameron, Cyclonic, Dixon, Kimray, Nordstrom, WKM and many more!
PNEUMATIC ACTUATION	VSI Premier Brands	 
	Other brands we sell	Bettis, Biffi, Limatorque, Morin and many more!
PRESSURE RELIEF & SAFETY VALVES	VSI Premier Brands	  
	Other brands we sell	Anderson Greenwood, ARI, Crosby, Farris, Leser, Mercer, Sarasin, Taylor and many more!
RUPTURE DISCS	VSI Premier Brands	
SPECIALIZED VALVE ADAPTERS	VSI Premier Brands	 <p>JBT CATCHER: A rotary to linear adapter for the electric actuation of plunger catchers on lubricators. JBT LIFTER: A rotary to linear adapter for the electric actuation of linear valves</p>
TRANSMITTERS AND INSTRUMENTATION	VSI Premier Brands	   
	Other brands we sell	ASCO, Peter Paul, Versa and many more!
VALVE GREASE AND FITTINGS	VSI Premier Brands	  

BRANDS

Asahi/America's pneumatic and electric actuators have pushed state of the art since 1987. Today's offerings have numerous features and material choices to accommodate the broadest range of applications. Asahi's pneumatic and electric actuation products have been significantly expanded, dictated by customer needs including the industry's most extensive line of corrosion resistant actuators.

AUMA-USA has been manufacturing electric actuators in Western Pennsylvania for over 47 years. Today, they are a tier one supplier to the water, power, oil & gas, and industrial markets.

Automation Service provides dependable and cost-effective remanufactured Fisher® control valves and Rosemount® transmitters and more shipped fast and covered by a 2-year service warranty.

Baker Hughes' Consolidated™ safety and pressure relief valves are expertly developed and tested to meet high standards for quality, safety, and dependability.

Continental Disc Corporation is your first line of defense with overpressure safety solutions for any industry and any application anywhere in the world.

Groth manufactures high-precision safety products like relief valves, flame control, vents, hatches and more. Safety is their first priority so you can have confidence in the reliability of Groth valves.

Hydroplex Hydra series throttle valves are Multi Orifice Valves (MOV) specifically designed to control high pressure liquids and gases, while providing reliability and extended service. The Hydra throttle valve's innovative modular design means that the valve body is not sacrificed during normal service, thanks to the replaceable downstream hub on some models. Most models allow for multiple stage pressure drops within ONE valve. The design flexibility allows for conversions from manual to automated and altering of pressure drops in the field for most models.

Masoneilan offers a century of proven control valve performance, optimized with advanced digital instrumentation and innovation. VSI is an authorized distributor of Masoneilan products in OK, portions of KS, TX, NM, and CO.

Max-Air Technology is a worldwide leader in automation technology and process control products encompassing a complete offering of quarter turn butterfly and ball valves plus pneumatic or electric actuation. Utilized in a variety of industries and applications, Max-Air valves and actuation packages are designed for easy integration and reliability.

MOGAS valves are designed with the highest quality materials to withstand the harshest of environments. They are backed by a lifetime warranty, which ensures they will work in your severe service applications for years to come.

Omni Valve delivers valve solutions enabling safe and environmentally friendly production of oil and natural gas.

Peaktronics is a leading manufacturer of electronic controls and accessories serving the valve & actuator controls industry worldwide. High tech electronic expertise combined with a thorough understanding of valve and actuator applications provide innovative and reliable products.

Promation specializes in manufacturing quarter-turn electric actuators which can withstand the toughest applications and handle virtually any liquid or gas industrial fluid.

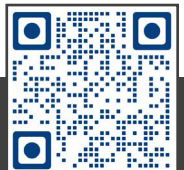

REXA provides high performance actuation for critical control valve, damper, and turbomachinery applications. Whether your goal is to maximize uptime, increase throughput and efficiency or improve safety, you can rely on REXA for your most challenging applications.

Tiger Valve Company (TVC) is an API Certified pipeline valve manufacturing company that provides quality engineered pipeline valves.

V-Tork is a manufacturer of valve automation products, committed to provide superior solutions to industry, included rack and pinion actuators, scotch yoke actuators, quarter-turn and multi-turn electric actuators with and without fail-safe capability and related accessories.

SERVICES

MOBILELAB™

Test, maintain and repair on-site.

Equipped with everything required to service all manufacturer's valves, our factory-trained service team will arrive at the scheduled time and stay at your site until the job is complete.

Certified air and water valve testing or VR repairs can be performed on our mobile pressure relief valve test stand with pressure capabilities ranging up to 1,500 psi or higher upon request.

SERVICES

Schedule these and other important services at your locations to save time, money and eliminate the risk of shipping damages and delays:

Safety Valves	Authorized assembler of Consolidated and Kunkle pressure relief valves. Full-service pressure relief and safety valve repair OF ALL BRANDS, for air, steam, and liquid service, in the shop or the field. We use only original parts and guarantee to return your valve to like-new or better condition.
Control Valves	Authorized assembler of Masoneilan control valves. Repair, refurbish, replace trim, and calibrate. In addition, we can service any brand with a full suite of control valve repair services to maintain and repair your assets, including OEM and aftermarket parts, field repairs, complete rebuilds, maintenance programs, DOT inspections and more.
Complete Line Valve Repair	Valve flushing and greasing is an important step in extending the longevity of your valves. Additionally, we can refurbish internal parts as needed, assemble and test.
Rupture Disc/Conservation Vent/Flame Arresters	Authorized representative for Continental Rupture Disc and Groth tank vents, flame arresters and blanket gas regulators for overpressure and flame protection. Shop and field repair and services available for all brands.
ValScope™Pro	Complete control valve diagnostic. With ValScope™Pro we can know what's wrong with your control valve BEFORE we disassemble it!
Oxygen Cleaning	Shop or field cleaning services for valves in the industrial gas industry.
MOV/AOV	Completely tear down, refurbish, repair to like new condition, & test in the shop or the field.
Pipeline Actuator Service	Factory-trained and authorized service technicians for not only the brands we sell but many other leading brands in the industry.
Pipeline Valve Service	ValvePro trained and certified technicians provide maintenance for pipeline ball, gate and globe valves and solutions for hard to operate valves.
Hydrofluoric Acid Services	Complete on-site or in-house certified testing or VR repair for valves on Hydrofluoric Acid applications.

PROCESS CONTROLS RECYCLING

VSI's Recycling program for select Instrumentation and Control Valves offers effortless value from all of your old, damaged or unused process instrumentation. We'll do the work, you'll get credits toward new remanufactured products. It's as easy as that.

CUSTOM ENGINEERED SOLUTIONS

Certified service solutions engineered for your unique needs.

- ▶ Custom Control Panel Design and Fabrication
- ▶ Emergency Shutdowns
- ▶ Custom Actuation Packages
- ▶ Valve Sizing & Selection
